Subject: RE: DPT issues

Here we go: RE: #9 We interpreted this to mean change from the existing PT Program (MSPT/BHS) to DPT (proposed) The existing is 100 hours while the proposed is 120 — hence the reason it was checked Yes — however — you are correct that it does not impact the existing Program (You are good!!!)

PT 604 — I’ve attached some electronic info — just add it as the redo of the 604 as I’ve completed the template for review — we knew it would need to be fleshed out and Sue did the initial to allow thanks again for the great eyes

PT-770 We had planned on having some weeks be heavier and others lighter — a better description would thus be Lecture 1-2 hrs. per week — (if averaged for the whole timeframe) so feel free to alter it to reflect Lecture 1-2 hours per week; … thanks again — Terry

Subject: DPT issues

Terry: Here are my issues with the DPT courses:

#9 On the Change in Existing course for PT 654 and PT 628. The comment: “It will contribute to an increase from 100 to 120 credits for graduation from the PT program.” Is this a change in the masters program? If so, a change in degree form needs to be submitted.

On the Application for a new course for PT 604, the syllabus is not complete, for example there is no grading and Sue Queen is listed as the instructor.

On the application for a change in existing course for PT 770 #4 present description and proposed description both have 0-2 lab hours and 2-3 lecture hours listed but the course is being decreased from 3 to 2 credits. Is there a typo in the new description?

The DPT has been changed from associate to doctoral on the CPE website.

See you at Grad Council tomorrow.
