Investigator: = Speck
E-mail_Address = dfspeck@uky.edu
1__Modifications: = 
2__Considerations: =
3__Contacts: =
4__Additional_Information: = This seminar-based course has been reduced from 2 hours to 1 in an effort to provide only the fundamentals of TMJ and orofacial pain that is necessary for all 4 programs. Students in the OFP program will take an additional course (OFP 636) that goes much deeper than the previous course.

I've asked Jeff Ebersole to provide a more complete description of the criteria/expectations that will be used for grading. The syllabus is very vague for this. He is currently traveling, but I hope to have additional detail before our meeting on Friday - I'm not sure it is necessary for approval, but I am concerned about potential disagreements between faculty and students without a better description.

UNIVERSITY OF KENTUCKY
APPLICATION FOR CHANGE IN EXISTING COURSE: MAJOR & MINOR

1. Submitted by College of ____________________________________________ Date 9/20/07
   Dentistry

Department/Division offering course Oral Health Science/Division of Orofacial Pain

2. Changes proposed:
   (a) Present prefix & number _______ CDS 631 _______ Proposed prefix & number _______ Same

   (b) Present Title ____________________________________________ Proposed Title ____________________________________________

   New Title ____________________________

(c) If course title is changed and exceeds 24 characters (including spaces), include a sensible title (not to exceed 24 characters) for use on transcripts:

   ____________________________

(d) Present credits: _______ 2 _______ Proposed credits: _______ 1

(e) Current lecture: laboratory ratio _______ 1:0 _______ Proposed: _______ 1:0

(f) Effective Date of Change: (Semester & Year) _______ Spring 2008 _______

3. To be Cross-listed as: ____________________________________________

   Prefix and Number ____________________________________________

   Signature: ___________________________________

   Department Chair

4. Proposed change in Bulletin description:
   (a) Present description (including prerequisite(s):

   This course is designed to give the graduate student a broad understanding of temporomandibular disorders and orofacial pain disorders commonly seen in the practice. Prereq: Admission to dental graduate program

   (b) New description:

   This course provides information regarding the normal anatomy and function of the masticatory system and then highlights some of the common disorders related to dysfunction of this system. Emphasis is placed on temporomandibular disorders and how they are identified and management in the clinical practice. Other disorders associated with orofacial pain complaints will be discussed so that students are able to identify these conditions and successfully manage them or refer the patient to the appropriate health care provider.

   (c) Prerequisite(s) for course as changed: ____________

   Admission to a dental graduate program

5. What has prompted this proposal?

   This course has been one of the Core Curriculum courses in the Master of Science program for many years. However, it has recently been recognized by the Program Directors in Periodontology, Orthodontics, and Pediatric Dentistry that the information provided in the current 2 credit hour format is more intensive than necessary to prepare their students to recognize and manage temporomandibular disorders and orofacial pain. The condensed 1 credit course will cover the major topics of importance to these orofacial problems at a level that will provide the knowledge needed to prepare the residents for management of their patients.

6. If there are to be significant changes in the content or teaching objectives of this course, indicate changes:

   The primary education goals remain the same. Special behavioral objectives have been modified. Course content has been modified.

7. What other departments could be affected by the proposed change? ____________

   Students in Oral Health Practice residency programs (Periodontology, Orthodontics)

8. Is this course applicable to the requirements for at least one degree or certificate at the
University of Kentucky?

9. Will changing this course change the degree requirements in one or more programs?
   If yes, please attach an explanation of the change. (NOTE — If “yes,” program change form must also be submitted.)
   □ Yes □ No

10. Is this course currently included in the University Studies Program?
    If yes, please attach correspondence indicating concurrence of the University Studies Committee.
    □ Yes □ No
UNIVERSITY OF KENTUCKY
APPLICATION FOR CHANGE IN EXISTING COURSE: MAJOR & MINOR

11. If the course is 400G or 500 level, include syllabi or course statement showing differentiation for undergraduate and graduate students in assignments, grading criteria, and grading scales. ☐ Check here if 400G-500.

12. Is this a minor change? ☐ Yes X No
   (NOTE: See the description on this form of what constitutes a minor change. Minor changes are sent directly from the Dean of the College to the Chair of the Senate Council. If the latter deems the change not to be minor, it will be sent to the appropriate Council for normal processing.)

13. Within the Department, who should be consulted for further information on the proposed course change?

   Name: Dr. Jeff Okeson Phone Extension: 323-8901

Signatures of Approval:

10/5/07
Date of Approval by Department Faculty

11/8/07
Date of Approval by College Faculty

11/20/07
Date of Approval by Graduate Council

*Date of Approval by Undergraduate Council

*Date of Approval by Health Care Colleges Council (HCCC)
Reported by Graduate Council Chair

*Date of Approval by Senate Council
Reported by Senate Council Office

*Date of Approval by University Senate
Reported by Senate Council Office

*If applicable, as provided by the Rules of the University Senate.

**********

The Minor Change route for courses is provided as a mechanism to make changes in existing courses and is limited to one or more of the following:

   a. change in number within the same hundred series;
   b. editorial change in description which does not imply change in content or emphasis;
   c. editorial change in title which does not imply change in content or emphasis;
   d. change in prerequisite which does not imply change in content or emphasis;
   e. cross-listing of courses under conditions set forth in item 3.0;
   f. correction of typographical errors. [University Senate Rules, Section III - 3.1]
CDS 631 Course Syllabus and Schedule  
Spring 2008

Course Director: Jeffrey P. Okeson, DMD  
Department of Oral Health Sciences  
Division of Orofacial Pain  
University of Kentucky College of Dentistry  
E-mail: okeson@email.uky.edu  
Phone: 323-8901

A. General Information: 
Course Designation: CDS 631: Diagnosis and Management of 
Temporomandibular Disorders and Orofacial Pain  
Type of Course: Required  
Starting Date: February 27, 2008  
Ending Date: April 23, 2008  
Credit Hours: 1

B. Purpose:  
This course will present information regarding the diagnosis and 
management of Orofacial Pain and Temporomandibular Disorders. The 
course will consist of seminar presentations. The information provided in 
this course will allow the student to understand the dentist’s role in 
managing temporomandibular disorders and other common orofacial pain 
disorders. This course will provide information that will assist the clinician 
in the differential diagnosis of orofacial pain disorders. The relationship of 
occlusion and TMD will be discussed in detail. The management of 
temporomandibular disorders will be emphasized since the dentist plays a 
major role in managing these pain disorders.

C. Primary Education Goals: 
The primary educational goal of this course is to provide:

1. An understanding of the basic mechanisms of normal and pathologic 
   processes involving pain and dysfunction in the craniofacial area.

2. An understanding of how the field of TMD and orofacial pain relates to 
   the various dental and other health sciences.

3. The ability to gather and analyze relevant data and formulate 
   appropriate treatment plans for the management of TMD and orofacial 
   pain.

4. An understanding of the social, structural, psychological, physiological, 
   and pathological contributing factors associated with TMD and 
   orofacial pain.

5. The ability to perform selected treatment procedures, using appropriate
management criteria, on patients suffering from TMD and orofacial pain.

6. The ability to evaluate treatment and management outcomes in the care of patients suffering from TMD and orofacial pain.

7. An empathetic understanding of the problems and special needs of patients suffering from TMD and orofacial pain.

D. Special Behavioral Objectives/Outcomes:
Upon completion of this course the student will be able to accomplish the following:

1. Recognize the clinical characteristics of the various acute and chronic TM disorders including chronic pain behavior and phenomena associated with its central and peripheral effects.

2. Recognize and differentiate the clinical characteristics of various orofacial pain disorders including acute and chronic manifestations.

3. Gather a comprehensive medical, dental and psychosocial history and review of systems, and recognize from it the factors that may predispose, cause, or perpetuate TMD and orofacial pain.

4. Describe the relationship between occlusion and TMD.

6. Discuss the indications, contraindications, and limitations of diagnostic techniques and devices

7. Develop a differential diagnosis between temporomandibular disorders and other orofacial pain disorders of local or systemic origin.

8. Describe the indications and contraindications for occlusal appliance therapy for TMD.

E. Reference texts:

Okeson, JP. Bell's Orofacial Pains, 6th ed., Quintessence Publ, Chicago, IL, 2005

Okeson, JP(Ed) Orofacial Pain: Guidelines for Assessment, Diagnosis and Management, Quintessence Publ, Chicago, IL, 1996
F. Course Format:
This course is presented in eight 2 hour didactic sessions. This graduate seminar is meant to engage each participant into the daily topics being discussed. The course director will lead the discussion and call upon participants to contribute. Active participation will be encouraged.

G. Evaluation Methods Overview:
   **Grading Policy:**
   The final grade, based on attendance and class participation, will be determined as follows:
   - A= high achievement
   - B= satisfactory achievement
   - C= minimum passing grade
   - E= failure

H. Attendance Policy
   Attendance is required at all classes. Excused absences must be approved by the Course Director. Each unexcused absence will result in a reduction by one grade for each day missed.

I. Remediation:
   There will be no remediation for this course. Failure of the course will result in the need to retake the entire course the next time it is offered.

J. Cheating and Plagiarism:
   All activities in this course are conducted under the College of Dentistry Code of Professional and Academic Responsibility and the University's Students Rights and Responsibilities publication (http://www.uky.edu/studentaffairs/code1). The College has high expectations of each student concerning their professional and academic responsibilities, including self-governance. Cheating and plagiarism will not be tolerated and will result in a failing grade. If you have questions about expected standards of behavior, it is your responsibility to discuss and clarify these questions with the Course Director.
