Recommendation_is:_ = Approve
Investigator: = Speck
E-mail_Address = dfspeck@uky.edu

1__Modifications: = In the syllabus, the grading format was changed to avoid some potential confusion and provide more consistency. The new grading scale will be A 7 points, B-6 points, C-5 points, E-<5 points. Without this change, the non-completion of the assigned topic (described in "K") could occur with a student still getting 4 points - under that situation one set of criteria would require an E grade and the other would dictate a C. This revised scale eliminates that confusion.

2__Considerations: =

3__Contacts: = Dean White approved this change in the syllabus.

4__Additional_Information: = This seminar-based course introduces current thought and practice on the major categories of oral disease. This course is a fundamental part of the revised MS program in dentistry for dentists in 3 of the 4 programs. This information was previously covered in much greater depth as part of 4 credit hours. Those courses (OPT 650 and 651) were maintained for the students in the periodontology program. This new course gives an overview more appropriate to students that are not pursuing that immediate focus (Orthodontics, Orofacial Pain and Pediatric).

APPLICATION FOR NEW COURSE

1. Submitted by College of _____________________________ Date ________
   Dentistry

   Department/Division offering course: Oral Health Science/Division of Oral Pathology

2. Proposed designation and Bulletin description of this course

   a. Prefix and Number CDS 670
   b. Title* Advances in Oral and Maxillofacial Pathology

   *NOTE: If the title is longer than 24 characters (including spaces), write
   A sensible title (not exceeding 24 characters) for use on transcripts

   Advances in Oral Pathology

c. Lecture/Discussion hours per week 2/week for 8 weeks
d. Laboratory hours per week 0

e. Studio hours per week 0

f. Credits 1

g. Course description: This course consists of 16 hours of lecture on the major disease topics in Oral and Maxillofacial Pathology including oral mucosal, salivary gland and bone pathology. Current classifications of these major categories will be presented and selected topics of current importance will be discussed.

h. Prerequisites (if any): Admission to dental graduate program

i. May be repeated to a maximum of ________ (if applicable)

4. To be cross-listed as

   ________ N/A

   Prefix and Number _____________________________

   Signature, Chairman, cross-listing department

5. Effective Date January 2, 2008 (semester and year)

6. Course to be offered

   □ Fall
   X Spring
   □ Summer

7. Will the course be offered each year? X Yes □ No

   (Explain if not annually)

8. Why is this course needed?

   This new course will offer a condensed version of information provided in the two existing courses, Graduate Oral Pathology I and II (OPT 650 and OPT 651). The condensed course will provide selected residents (primarily Orthodontics, Pediatric Dentistry and Orofacial Pain) with the necessary Oral Pathology knowledge base to prepare them to diagnose and manage a variety of diseases that affect the oral and perioral tissues. OPT 650 and OPT 651 will continue to be offered in the Core Curriculum in their full format but will primarily target residents in the surgical specialties of Oral and Maxillofacial Surgery and Periodontology.
9. a. By whom will the course be taught? Dr. Dean White, Course Director

b. Are facilities for teaching the course now available? X Yes ☐ No
   If not, what plans have been made for providing them?

10. What enrollment may be reasonably anticipated? 10-15 students

11. Will this course serve students in the Department primarily? X Yes ☐ No
   Will it be of service to a significant number of students outside the Department? ☐ Yes X No
   If so, explain.

12. Will the course serve as a University Studies Program course? ☐ Yes X No
    If yes, under what Area?

12. Check the category most applicable to this course
   X traditional; offered in corresponding departments elsewhere;
   ☐ relatively new, now being widely established
   ☐ not yet to be found in many (or any) other universities

13. Is this course applicable to the requirements for at least one degree or certificate at the University of Kentucky? X Yes ☐ No

14. Is this course part of a proposed new program:
   If yes, which? ☐ Yes X No

15. Will adding this course change the degree requirements in one or more programs?
    If yes, explain the change(s) below (NOTE – If “yes,” a program change form must also be submitted.) X Yes ☐ No

16. Attach a list of the major teaching objectives of the proposed course and outline and/or reference list to be used.
    Please see attached syllabus.

18. If the course is 400G or 500 level, include syllabi or course statement showing differentiation for undergraduate and graduate students in assignments, grading criteria, and grading scales. ☐ Check here if 400G-500.

19. Within the Department, who should be contacted for further information about the proposed course?

   Name Dr. Dean White

Rev 7/06
CDS 670 COURSE SYLLABUS & SCHEDULE  
SPRING 2008

Course Director: Dean K. White, DDS, MSD  
Division of Oral & Maxillofacial Pathology  
University of Kentucky College of Dentistry  
Office: D506  
E-mail: dkwhite@uky.edu  
Phone: 323-5515

A. General Information:  
Course Designation: CDS 670: Advances in Oral & Maxillofacial Pathology  
Type of Course: Required  
Starting Date: January 2, 2008  
Ending Date: February 20, 2008  
Credit Hours: 1

B. Purpose:  
This purpose of this course is to present current thought and information on the major categories of oral disease which involve oral mucosa, salivary gland, bone and odontogenic tissues. The current classification of these disorders will be presented and selected topics of current clinical importance will be discussed. Additionally, students will be exposed to a systematic approach to the diagnosis of oral alterations utilizing various factors including etiology, patient demographics and tissue involved so that their patients will receive appropriate management.

C. Goals:  
1. To present the current classification of diseases which affect oral mucosa, salivary gland and connective tissue, bone including odontogenic tissue and teeth.

2. To present a systematic approach for students to diagnose and manage oral alterations.

3. To discuss topics which have significant current clinical importance in the practice of dentistry.

D. Outcomes:  
At the completion of this course the student is expected to be able to diagnose and manage oral tissue abnormalities.

- Management includes the concept of recognition of an oral abnormality and referral to a health care provider with expertise in diagnosis and management of the condition beyond the student’s capabilities.
E. Learning Resources:

F. Course Format:
The course is presented in eight 2 hour lectures which include a discussion of individual case studies involving student participation. Additionally, students will be assigned a topic relevant to their discipline to be presented at a future regularly-scheduled class.

G. Faculty:
   Dean K. White, DDS, MSD, Course Director
   Office: D506 Dental Science Building
   Telephone: 323-5511
   E-mail: dkwhite@uky.edu

   Douglas D. Damm, DDS
   Office: MN 528A College of Medicine
   Telephone: 323-5511
   Email: ddamm@uky.edu

H. Evaluation:
The following criteria will be utilized in formulating a final grade:

   Course attendance- 100% attendance excluding 1 excused absence by course director (2 points)
   Course participation- in each lecture (2 points)
   Completion and presentation of classroom assignment (3 points)

I. Grading:
   A= high achievement (7 points)
   B= satisfactory achievement (5 points)
   C= minimum passing grade (4 points)
   E= failure (<4 points)

J. Attendance Policy:
   Attendance is required at all classes. Excused absences must be approved by the course director and will not exceed 2 hours.

K. Make-up Policy:
   Missed classroom attendance and participation can not be made up. Non-completion of the assigned topic will result in an E grade.

L. Remediation:
There will be no remediation for this course. Failure of the course will result in the need to retake the entire course at the next schedule time.

M. **Cheating, Plagiarism and Class Conduct:**
All activities in this course are conducted under the College of Dentistry Code of Professional and Academic Responsibility and the University’s Student Rights and Responsibilities publication. The College has high expectations of each student concerning his/her professional and academic responsibilities, including self-governance. Cheating and plagiarism will not be tolerated and will result in a failing grade. Disrupting the normal flow of the class will result in leaving the class and receiving an unexcused absence.
