14. What has prompted this change?

All other undergraduate topical Geography courses are at the 400 level. This change brings this course in line with the departmental norm. Including the "G" option guarantees that graduate students can continue to take this course.

No change in course content or emphasis.

15. If there are to be significant changes in the content or teaching objectives of this course, indicate changes:

None

16. Please list any other department that could be affected by the proposed change:

None

17. Will changing this course change the degree requirements for ANY program on campus?  ☒ Yes  ☐ No

If YES, list below the programs that require this course:

☐ YES  ☐ NO

*In order for the course change to be considered, program change form(s) for the programs above must also be submitted.

18. Is this course currently included in the University Studies Program?

☐ Yes  ☒ No
19. [X] Check box if changed to 400G or 500.
If changed to 400G or 500-level, you must include a syllabus showing differentiation for undergraduate and graduate students by (i) requiring additional assignments by the graduate students; and/or (ii) the establishment of different grading criteria in the course for graduate students. (See SR 3.1.4)

20. Within the department, who should be contacted for further information on the proposed course change?

Course Description

The 20th century experience dramatic changes have occurred in the political world arena. New states have arrived on the world stage and as we pass the millennium the geopolitical order continues to transform. Political Geography relates these global processes to day-to-day experience, fully integrating diverse politics across geographical scales and providing an essential introduction to the growth and impact of globalization.

This course sets these global changes into a theoretical context within a world-systems framework, in order to make them understandable within the overall historical and geographical pattern of world political development.

Student Learning Outcomes

- Become familiar with the history, actor and institutions that are associated with political geography.
- Demonstrate an ability to critically evaluate the positive and negative outcomes of change within political geography.
- Write a capable, interesting paper on a specific case study of a particular region's experience with some aspect of political geography.
- Show mastery of the key arguments and issues affecting and affected by political geography.

Text/Readings

Graduate students will also be expect to read additional material not contained within the textbook for the course. The aim is to give graduate students the opportunity to read the foundation texts directly. These texts (which will be outlined later) will be handed out in the class prior to when they are due.

Grading

This course is designed as a seminar. This means that lectures will be kept at a minimum and each and every class member should be prepared to actively participate in discussion. Grades will be assigned based on the following criteria.

1. Class participation (10 percent)
2. Weekly write-ups on reading (30 percent)
3. Research Paper Proposal (10 percent) – DUE November 9 @ class
4. In class research presentation (10 percent)
5. Final Paper (40 percent) – DUE December 8 by NOON

For obvious reasons, undergraduate and graduate students will be judge by different standards. Graduate students are expected to provide write ups on both the textbook and supplementary materials and to be leaders in the class discussions. In general, graduate students are expected to grapple with the material more deeply.

The research paper will be 15 pages (undergrads) or 25 pages (grads) exclusive of references and any figures. Details on the topic of the research paper will be given later in the semester.

Attendance and active participation in class is essential to achieve a good grade. If you miss class, you are responsible to get the class notes from another student (likewise, please share your notes with those who need them, within reason). While I am happy to help students in my office hours, it is your responsibility to keep up with the course by attending class regularly.

Final grades for undergraduates will be based on a standard scale, i.e., A=90-100%; B=80-89%; C=70-79%; D=60-69%; E=less than 60%.

Final grades for graduate students will be based on a standard scale, i.e., A=90-100%; B=80-89%; C=70-79%; E=less than 70%.

Absence Policy
Excused absences are acceptable under certain circumstances such as serious illness, illness or death of a family member, university-related trips, major religious holidays, etc. It is your responsibility to inform me of an absence, preferably in advance, but no later than one week afterwards. I retain the right to ask for proof/documentation (a note from the Dean of Students) regarding the nature of the absence.

Cheating/Plagiarism

Part II of Student Rights and Responsibilities (6.3.1; online at http://www.uky.edu/StudentAffairs/Code/part2.html) states that all academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about a question of plagiarism involving their work, they are obliged to consult their instructors on the matter before submission.

When students submit work purporting to be their own, but which in any way borrows ideas, organization, wording or anything else from another source without appropriate acknowledgment of the fact, the students are guilty of plagiarism.

Plagiarism includes reproducing someone else's work, whether it be published article, chapter of a book, a paper from a friend or some file, or whatever. Plagiarism also includes the practice of employing or allowing another person to alter or revise the work which a student submits as
his/her own, whoever that other person may be. Students may discuss assignments among themselves or with an instructor or tutor, but when the actual work is done, it must be done by the student, and the student alone.

When a student's assignment involves research in outside sources or information, the student must carefully acknowledge exactly what, where and how he/she has employed them. If the words of someone else are used, the student must put quotation marks around the passage in question and add an appropriate indication of its origin. Making simple changes while leaving the organization, content and phraseology intact is plagiaristic. However, nothing in these Rules shall apply to those ideas which are so generally and freely circulated as to be a part of the public domain.

The minimum penalty for cheating of plagerism is an "E" for the assignment, with suspension and dismissal also possibilities.
