**II. RATIONALE FOR CHANGE(S)**

If the rationale involves accreditation requirements, please include specific references to those requirements. This combined MA/PhD option exists, but is not well codified in our program statement. Therefore, we are adding it here. This program will allow more rapid movement toward the PhD for students coming in with a Baccalaureate degree, and who are deemed by the DGS, their Advisor and committee to be able to go forward to PhD-level research, without first doing an MA thesis. Should the student fail to pass the qualifying exams, this program provides a mechanism for receiving the MA.
