Memorandum

TO: Deans, Chairs, and Directors of Graduate Studies

FROM: Daniel R. Reedy, Dean *DRR*
Constance L. Wood, Associate Dean *CLW*

SUBJECT: UK DOCTORAL PRODUCTION AND PLACEMENT, 1992-94

Please find attached summary information on the 421 doctorates who graduated from UK during 1992-93 and 1993-94. Despite the tight job market for graduates in some disciplinary areas, UK's doctoral recipients appear to have been reasonably competitive for positions. Only 1.0% indicate that they sought but did not find a position.

The majority of our doctoral graduates continue to enter academic positions. Fifty-one percent took positions in K-12, college and university, research, and administrative jobs. Our impact on Kentucky seems particularly significant with doctoral students in positions at UK, U of L, five regional universities, five private colleges, as well as four Community Colleges and six public school systems.

Copies of these materials are currently being disseminated to the Chancellors, Vice Presidents, and other academic officers. The reports attached cover the various types and location of doctoral placement by generic arrangement and by academic program. Should you have questions about these data, please let us know.
