

MEMORANDUM

DATE: May 12, 1997

TO: Deans, Chairs, and Directors of Graduate Studies

FROM: Constance L. Wood, Acting Dean *Constance L. Wood*

SUBJECT: UK DOCTORAL PRODUCTION AND PLACEMENT, 1995 -1996

Please find attached summary information on the 236 doctorates who graduated from UK during the 1995 - 1996 academic year. Despite the tight job market for graduates in some disciplinary areas, UK's doctoral recipients appear to have been reasonably competitive for positions. Only 0.4% indicate that they sought but did not find a position.

The majority of our doctoral graduates continue to enter academic positions. Fifty-one percent took positions in K-12, college, university, research, and administrative positions at UK, four regional universities, six private colleges, as well as two community colleges, and eight public school systems.

Copies of these materials are currently being disseminated to the Chancellors, Vice Presidents, and other academic officers. The reports attached cover the various types and locations of doctoral placement by generic arrangement and by academic program. Should you have questions about these data, please let us know.
