

Training Requirements Checklist

According to IACUC Policy 106 all personnel who plan to work with animals or are listed on a protocol must complete the following initial and continued education requirements **before** the protocol will be approved and studies can begin. Additionally other requirements and other trainings are listed. All listed courses are available from the AALAS Learning Library (<https://www.aalaslearninglibrary.org>) except where otherwise noted.

IACUC Mandatory Initial Education*

Date Completed or N/A

- "Working with the IACUC "
- If euthanasia is listed on the protocol "AVMA Guidelines for the Euthanasia of Animals: 2013 edition "
- If performing surgery on non-agricultural species either "Aseptic Technique for Rodent Survival Surgery " **OR** "LAT 13: Aseptic Technique "

AND

- Either "Pain Management in Laboratory Animals (2014) " **OR** "Post-Procedure Care of Mice and Rats in Research: Minimizing Pain and Distress " **OR** "Inhalation Anesthesia Systems for Rodents "

Occupational Health and Safety

- "Occupational Health and Safety in DLAR" Presentation and Quiz available from the Division of Laboratory Animal Resources: <http://www.research.uky.edu/dlar/Training.htm>
- Medical Surveillance Form: instructions for completion and access to this form will be provided by University Health Service after the individual's inclusion on an animal protocol (UHS will notify the IACUC staff on final clearance). **Required yearly.**

IACUC Mandatory Continuing Education (every 3 years)*

- Either "Working with the IACUC " **OR** "Refresher: Working with the IACUC "
- One course of your choosing from the IACUC/IACUC-staff approved list of courses located at http://www.research.uky.edu/ori/univet/training/Continuing_education.html
