2017 National Science Foundation Higher Education Research & Development Survey

**Rankings**
- 62nd (2016)
- 41st (2016)
- $378.4M (2016)
- 45% (2016)

**Facts**
- Of the 644 public and private institutions surveyed, UK was ranked 62nd, up two spots from 2016.
- UK remained 41st among the 400 public institutions surveyed.
- During 2017, the University spent $378.4 million to carry out research and development.
- Of the $378.4 million in R&D expenditures, 45% ($171.3 million) came from federal sources.

**Expenditures**
- $117.4M (2016)
- $21.2M (2016)
- 1,595

**Expenditures by Field**
- Life Sciences: $276.0M
- Engineering: $45.4M
- Other Sciences: $26.8M
- Non-science & Engineering: $10.4M
- Physical Sciences: $7.5M
- Psychology: $4.5M
- Computer & Information Sciences: $3.0M
- Geosciences & Atmospheric Sciences: $2.6M
- Social Sciences: $1.3M
- Mathematics & Statistics: $0.9M
