What is it?

➢ Web EMS or MeetatBigBlue is a scheduling software used by the University of Kentucky to support space and service scheduling on campus.

Who has access to reserve the labs online?

➢ Access is only available to users who are active in eSirius. This is to ensure investigators and users of lab space have completed the necessary lab protocol. The form appears for any user in good standing in eSirius.
➢ Users are imported into EMS every weekday no later than 9 am. If you are a new eSirius user, you may need to wait until the next business day to see the lab reservation form appear.
➢ All faculty and staff are created accounts as soon as their department enters their information into SAP and they see campus wide event and meeting forms only unless they are in eSirius. These users will see multiple groups when filling out their web forms.

How do I get help?

➢ Trouble logging in, viewing the lab reservation form, or help with configuration (how things work or look) email EMStechsupport@uky.edu. The Office of University Events partners with ITS to maintain and support EMS for UK users.
➢ For training or assistance learning how to use EMS, contact Hannah Centers at hannah.centers@uky.edu or JoeAnn Croxford at ejcrox2@uky.edu

How do I edit the answers on the reservation questions on my reservation?

When will I receive a confirmation?

How do I look up my existing reservations?
How do I login?

- Username and password are the same as your link blue account. Do not use @uky.edu when logging into EMS.

Step 1: Navigate to http://meetatbigblue.uky.edu from any web browser to see the website.

Step 2: Click “Login” then “Sign In”

Step 3: Enter your link blue username and password. Do not use @uky.edu in the username field. Then click “Sign In”

How do I reserve a lab?

Step 1: Select “Create A Request” from the left-hand menu.
Step 2: Click the button “Book Now” to the right of the DLAR Lab Reservation Request Template.

Step 3: Enter the date, start and end time of the reservation.

Step 4: Click Add/Remove next to “Locations” the location/building you want to search within.

Step 5: Check the box next to each building you want to search. Then select “Update Locations.”
TIP: Use the view tab to look for types of labs or to search for all labs. If you use this option, be sure to unselect the previous buildings by clicking next to each building.

**Step 6:** Select Apply to see all labs that meet your criteria. Under spaces you can reserve.

**Step 7:** Select the lab(s) you want to reserve by clicking the symbol + next to each space.

**Step 8:** A pop-up will appear. Enter the number of investigators will be in the lab in *No. of Attendees* and select the type of research being performed under *Setup Type*. Then select *Add Space*.
Step 9: Select **Request Details** OR **Next Step** to proceed to the questionnaire.

![Image of the request details page]

Step 10: Enter your XXXX Number in the Event Name field.

Step 11: Select **DLAR - Authorized eSirius Users** as the **Group** and yourself as the **Planning Contact**.

- **TIP:** Names are sorted by last name then first. If you have someone else who needs a confirmation of the space, enter their information in the Day of Contact fields.

Step 12: Complete the required questions.

![Image of the request details page with required questions highlighted]

Step 13: Agree to the terms and conditions by checking the box.

Step 14: Click **Submit Request** to complete your reservation.
How do I Select Multiple Dates and/or Times for one reservation?

- To select multiple dates for the same times, select recurrence and change the “repeats” drop down to select your days.
  - TIP: Use the random option to select your dates on a calendar

- To select multiple dates with different times or rooms, complete steps 3-7 then repeat for each variation in date, time, or room until all rooms needed appear under selected spaces.
  - TIP: To see all dates and times selected or make changes to time, date, or attendance, click **My Selections**.

How do I add additional dates to an existing reservation?

**Step 1:** Select My Requests on the Web EMS homepage.

**Step 2:** Select the name of an existing research project.
Step 3: Select New Booking.

Step 4: Go to “How to reserve a lab” and complete steps 3-8.

Step 5: Select Update Reservation.

How do I cancel an entire reservation (all booking dates)?

Step 1: Select My Requests on the Web EMS homepage.

Step 2: Select the name of an existing research project.
Step 3: Select Cancel Reservation.

Step 4: Select a cancel reason from the list and type cancel notes (as applicable). Then select Yes, cancel reservation.

How do I cancel a booking (1 or more dates within a larger reservation)?

Step 1: Select My Requests on the Web EMS homepage.

Step 2: Select the name of an existing research project.
**Step 3:** Select the icon next to the date you want to cancel.

**Step 4:** Select a cancel reason from the list and type cancel notes (as applicable). Then select Yes, cancel reservation.

---
