#### Nicholas Newman, DO, MS, FAAP

*Attending Physician*

Division of General and Community Pediatrics

*Medical Director*

Pediatric Environmental Health and Lead Clinic

*Assistant Professor*

University of Cincinnati Department of Pediatrics

*Nicholas Newman, DO, MS, FAAP, is board certified in general pediatrics as well as occupational/environmental medicine. He is interested understanding how toxicants in and around a child's home or school can affect children's health.*

*He is also interested in developing approaches to prevent or mitigate these effects at an individual and at a community level. His recent research has examined the effect of traffic-related air pollution exposure on neurobehavioral problems in children as well as the impact of air pollution on asthma in children.*
