

# Biosafety Considerations for Biological Sample Management in COVID-19 Research

## DATE

Wednesday,  
May 20, 2020

## TIME

12:00-1:00 pm  
via ZOOM

## Presented by:

**Brandy J. Nelson,  
MS, SM(NRCM), CBSP**  
Biological Safety Officer,  
Institutional Contact for  
Dual Use Research

Adjunct Associate Professor,  
Microbiology, Immunology &  
Molecular Genetics  
Department of Biological Safety

## Key Objectives:

- Review agent specific information for SARS-CoV-2 including containment levels for experimental procedures
- Discuss types of experimental procedures which can be safely conducted within UK facilities
- Define Institutional Biosafety Committee (IBC) requirements for COVID-19 research projects
- Describe best practices for laboratory facilities handling COVID-19 patient specimens

---

## **REGISTRATION REQUIRED:**

**Please register in advance for this meeting.**

**After registering, you will receive a confirmation email containing a calendar invite and information for joining the ZOOM meeting.**
