CCTS Research Data 2020: Data Sources in the CCTS Enterprise Data Trust

DATE
Wednesday, September 9, 2020

TIME
12:00-1:00 pm
via Zoom

Presented by:
Jeff Talbert, PhD
Professor, Department of Internal Medicine, College of Medicine
Director, Institute for Biomedical Informatics Division
Chief, Biomedical Informatics, College of Medicine
Director, IPOP
Associate Director, UK CCTS

Objective:
The CCTS has access to multiple datasets that our members can use to further their research. Dr. Talbert will discuss several of these data sources and how they may be utilized in your investigations.

REGISTRATION REQUIRED
After registering, you will receive a confirmation email containing information about joining the meeting.

CCTS Biomedical Informatics (BMI) Core
The Biomedical Informatics (BMI) Core provides access to biomedical informatics expertise, technologies, and data management platforms to CCTS and their investigators. The CCTS BMI team integrates the CCTS BMI Core, Institute for Biomedical Informatics (IBI) and the Institute for Pharmaceutical Outcomes and Policy (IPOP) housed in the College of Pharmacy.

Institute for Biomedical Informatics
The Institute for Biomedical Informatics (IBI) translates data to knowledge to improve human health and effectively use the latest technology and tools for the advancement of biological sciences. The IBI promotes translational team science and engages the entire campus to develop and grow informatics and data science training programs; share research and data infrastructure and enable technology innovation.
