Basin Status Report Summary: Upper Cumberland River Basin

During the forum, a representative from each of Kentucky’s seven major river basins provided insights about current focus areas, challenges, and needs and opportunities. Jed Grubbs, with the Cumberland River Compact, provided the Upper Cumberland River Basin report.

Focus Watersheds:
- Headwater tributaries
- Lake Cumberland

Needs & Opportunities:
- Upper Cumberland River Basin Coordinator
- Watershed Watch support
- Cumberland River Compact staff eager to collaborate with Kentucky partners, but currently more focused on Tennessee segment of the river
